Will Obamacare Cuts Effect You?

Springfield, MO.- 1/17/16

Ever since its conception, the affordable care act has garnered support and opposition, with many seeing it as a double edged sword. As it stands, the urban institute paper says that if certain parts of Obamacare

are repealed, more than five hundred thousand Missourians *could* lose their insurance within the next few years and insurance premiums could more than double.

Crystal Brigman Mahaney, Deputy Director of Missouri Healthcare for All says, "Pre-existing conditions no longer being a barrier, children up to age 26 being on their parents healthcare plans, and a slew of other protections could just go away".

Protests, sparking across the country, trying to keep senators from dismantling the affordable care act, including here in Springfield.

Mahaney continued, "What is dangerous and reckless about this is that they are moving forward on these votes without an adequate replacement plan".

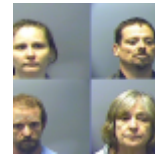

Many senators who voted to repeal and replace Obamacare have not offered a replacement plan at this time which could spell trouble for those who are currently insured.

"More and more people are paying attention and realizing these could affect them no matter how they voted" Mahaney added.

Mercy, saying that if you do currently have health insurance, or are signing up, then you don't have anything to worry about, At least for some time.

Dr. Barbara Bumberry, a Mercy Clinic Physician says, "They probably won't see any changes with their healthcare other than insurance rates may change or their copay or deductibles change, like they seem to do every year",

If you don't like the way decisions in Washington are being made, Missouri health care for all suggests getting in contact with your senator, to let your voice be heard.
